
 DYS 461=12
 DYS 461=11

All 6 participants carry these markers and their values in common. This is the common ancestor

The "C" group in the Sturdevant Genetic Project at <http://www.sturgood.com/dna/result/>
 This representation depicts the "hole" in the genealogy of the Descendents of William Sturdevant of 1675 Norwalk CT.
 It traces the path of the DYS 461 through the known genealogy. A spreadsheet view of these results is available here http://www.sturgood.com/dna/pdf/results_all.pdf

(a) James 1781 listed as "son of" in will of John III

(b) This Jonathan is not documented or even known. But reasonable if we do have a line of Jonathans from 1670 to 1761.
